MESSAGE

I am happy to know that National Council for Climate Change Sustainable Development and Public Leadership (NCCSD) in association with Nirma Institute of Law, Nirma University, Ahmedabad and National Environmental Science Academy, New Delhi is organizing an International Conference “**Strengthen Climate Justice Initiatives at local level for sustainable livelihood with a focus on farmers**” on 8-9 November, 2014 at Ahmedabad.

Sustainable optimum production in agriculture has become a global concern. In the global context of climate change with an agenda of ‘One world One health’, we must mitigate the adverse effects on ecosystem health and therefore, its services. Hence, legal instruments and research policies should be made in advance to address such issues for climate justice, at least with respect to farmers.

It is hoped that the Conference would generate intense deliberations among the participants and will culminate in identifying strategic areas of research solution for balancing ecological principles with societal values.

I wish the Conference all success.

(S. Ayyappan)
